

PRICING GUIDE REFERENCE

As a consignor you are free to price your items as you like, this guide was made for the purpose of being a reference, a sort of starting point for pricing your items. Not all items you are selling will be on this list. Another helpful place for pricing reference is Ebay. Please keep in mind that you want to price your items to sell! A good rule for pricing is to price your item 25-40% of what you paid for it (depending on brand and condition.) Upscale and boutique type items can be priced at 30-40% of what you paid (depending on brand and condition). Please ask yourself these questions when pricing your items: Would I buy this item? Would I pay this amount for this item?

You are NOT required to price your items according to our pricing guide, it is meant to be a reference for you.

Please keep in mind that all items MUST be at least \$3.00 and MUST be priced in increments of .50 cents.

Also to keep in mind, if an item you're selling can still be purchased in the stores, we suggest you add \$2 to the price.

***** Golden Rule for Consignors: If you wouldn't buy it, don't sell it! *****
